We are trial lawyers.

That is what we do best. With skills originally honed before criminal juries, and dedicated for the past six years to the seriously injured and to the families and estates of those killed, we won over \$6 Million in jury verdicts in 2009 alone. We select only a small number of clients so that we can dedicate ourselves fully to preparing their cases for trial. We utilize the state of the art in trial presentation skills learned through working directly with Gerry Spence, David Ball, Rick Friedman and Don Keenan. We discover the client's story with help from the world's leading trial consultants. We hone our presentations before focus groups every month of the year. We fight for our clients - and win.

If you are a referring attorney, you win as well. We take on the heavy lifting. Your client has our undivided attention. And we involve you to the full benefit of the client. With over \$6 Million in jury verdicts in 2009 and on track to exceed this in 2010, our results speak for themselves. Call on us today to work with you on the case in your office that needs to be tried.
